

# Let's make public and community housing better

## Victoria's review of social housing

### What is the Review?

The Review is looking at public and community housing (social housing) to make the system work better for tenants and to attract investment for more homes.

It is an independent review using research, interviews and community feedback. The Review will provide recommendations to the Victorian Government for action.

### We want to hear from you

The Review is open to everyone in Victoria. We particularly want to hear from tenants and people eligible for housing.

Submissions close on 20 September.

### It is easy to have your say

It only takes a few minutes to tell us what you think. Use the link below or send us an email:

### Tell us what you think

We want to hear about any issues that are important to you. All submissions are anonymous, unless you want to include your name. Key questions include:

- What would you change about social housing?
- Does the waiting list work well?
- How can tenants have a stronger voice?
- What are the biggest problems that need to be fixed?
- What information and support do tenants need?
- What rules and policies make it easy or hard to feel at home in your property?
- What is good about community housing?
